Product Specifications

- 1.5mm thick stainless steel #304 frame (40mm x 40mm square tube), hairline finishing for long lasting appearance.
- Suitable for GN 2/1 pans and/or GN 1/1 pans food pan with pan capacity of 16 GN 2/1 pans or 32 GN 1/1 pans. Can also make trolleys to suit/accommodate other sizes of pans such as bakery pans, etc.
- 16 pairs of stainless steel angle slides with a tray stopper (5mm high) on both ends to help preventing the GN pans flying out during transportation.
- With a cross bar at the bottom of the trolley to reinforce the strength and weight-bearing capacity of the trolley.
- With a cross bar in the back of the trolley made of stainless steel #304 (40mm x 40mm square tube) as a stopper bar and to help strengthening the body of the trolley.
- With a stainless steel cover on top of the trolley to prevent any dust or any unwanted materials falling onto the food from above.
- 4 stainless steel swivel castors, 2 with brakes and 2 without.
- 4 caster mounting plates at bottom of the trolley (made of stainless steel #304, 3mm thick) to reinforce the trolley while keeping the casters in a secured position.
- 4 corner bumpers for protection.
- Trolley is designed to support the loading weight of 200kg.
- Trolley is designed to be washable by pressured hose for easy cleaning and maintenance.
